

2014 CAD/BIM MARKET REPORT

The 2014 CAD/BIM Market Survey was an A2K Technologies initiative to provide peer-driven statistics to leaders within the architecture, engineering, construction, infrastructure, manufacturing and government sectors across Australia and New Zealand. Based on an online survey of 300 respondents, the Key Findings Report presents data on the current state of CAD and BIM.

Demographics

51%

Owner/Director/Senior Manager

14%
